

How to Determine Bangle Size

You can determine your bangle size in a very easy way. Just follow one of the method to find the correct size.

Method I

Step I : If you have an existing bangle, measure the inner diameter with the scale in mm or inches.

Step II : Use the Bangle Sizing Chart to locate the size that best suits you

Method II

Step I : Close your fingers together and bring your thumb close to your little finger. Same as the position of putting the bangle.

Step II : Wrap a measuring tape or string of thread on the widest part of your hand as shown in the image.

Step III : Mark your size on the thread or on the measuring tape. This will be the circumference of your hand.

Step IV : Measure the thread or tape from mark to mark on scale and find your bangle circumference (in mm).
